Cookie Clicker

Objective

- Click a cookie
- Get cookies
- Buy things that allow you to get more cookies (cursor, grandma, etc.)

Demo

function

- Reusable code
- Can take in parameters
- Can return values

```
function a() {  
    alert(1)  
}
```

```
function function_name(an_argument, another_argument) {  
    // do stuff  
    return "return value";  
}
```

setInterval

- Runs code at specific intervals

```
// runs function a once  
// every second  
setInterval(a, 1000);
```

Congratulations...

But your journey is far from over!

Selling cursors

Add the feature to sell cursors for cookies in return.

Buy a grandma!

Add grandmas to the shop, makes cookies faster than cursors.

Cookie Image

Replace the “click” button with an image of a cookie/
